The entity to receive funding for this project is in the Town of Danville, located at 210 Main St, Danville, NH, 03819. The funding would be used for the replacement of the Hill Street Pedestrian Bridge in Laconia, which spans the Winnepesaukee River. The project is an appropriate use of taxpayer funds because it is an arterial walking path connecting the entire eastern half of the city and Laconia's Historic Downtown, aligns with the city's existing revitalization over the past 7 years, and would last the city an estimated 100 years in comparison to repairs to the exiting bridge which would only last an estimated 20 years.

The project has a federal nexus because the funding provided is for purposes authorized by 42 U.S.C. 5305(a)(1), 5305(a)(2), 5305(a)(4), and/or 5305(a)(5).

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,
